**CHANGE Elevators** 2010  
 Client: University of Washington  
 Foster School of Business  
 Design: Karen Cheng + Kristine Matthews

This permanent floor installation reflects upon the dynamic relationship between business and change. The word 'CHANGE' is set in stainless steel letters within the stone floor of two elevators, along with 18 synonyms for change (ADAPT, INNOVATE, TRANSFORM, etc.). Each synonym is highlighted with actual 'loose' change (international coins that hint at the diversity of the UW Foster School of Business as well as the global nature of business itself.) As the elevator moves from floor to floor, the interior word 'CHANGE' is modified by another word just outside of the elevator, to both the front and back. A 3-minute video of the project is available online: <http://vimeo.com/19380538>
